

Micro Dermal NANO Needle Pen

- Super Strong Motor
- Medical Grade
- Over 5 Hours Cordless Running Time

The Micro Dermal Needle Pen is a powerful, quality micro needling system that can work for over 5 hours cordless running time on Lithium battery power or continuous usage from wall power with visible battery status. A smart "recharge mode" provides fast recharging turn around.

The Micro Dermal Pen is constructed of a durable and rugged steel alloy. The high quality, super strong motor comes with a battery powered controller head with 3 operating speeds, while the wall power controller head has 7 adjustable speeds.

Your Micro Needle Pen comes with both 12 pin, or 57 (Nano) pin disposable treatment cartridges. The treatment depth is adjustable between 0 and 2.5 mm when using the 12 pin cartridge for collagen stimulation, scar revision or deeper work. The 57 pin "Nano" cartridge delivers great results when used for product introduction on skin that requires minimal depth of penetration.

We offer a 1 year warranty with free replacement during this time. Sterile replacement tips are available in 10 packs of 12 or 57 pin stainless steel needles for superior strength and sharpness.

Material	High quality alloy, ABS
Battery Duration	Over 5 hours cordless running time, 900 mAh, 3.5V, 1A
Power Supply input	AC100-240V, 50/60HZ
Power Supply output	DC5V 1A
Rotation speed range	6,000 – 12,000 RPM
Adjustable needle depth.....	0 – 2.5mm
Packaging.....	Metal alloy carry case
Net Weight	4 ozs
Warranty.....	1 Year replacement for free
